

Agenda 21 Course

Understanding Sustainable Development and How It Affects You

The Agenda21Course.com website is ready!

Agenda 21 is a 1992 un-ratified treaty that has been aggressively implemented by President's on both sides of the aisle for over twenty years.

These policies are designed to steal our private property rights, while undermining our Constitution, system of government, and national sovereignty, and are being implemented on every level of government; federal, state, and local.

Agenda 21 is what is wrong with America today. If you have heard the phrase "sustainable development", you have heard of Agenda 21. Sustainable Development is used in order to "quietly" implement these policies, while lulling the citizen into a false sense of security.

If you would like to learn more about the threat that Agenda 21 poses to you, your family, and your country, please go to www.agenda21course.com . Unlike other websites, this website will provide organized, topical, sequential information on Agenda 21, getting you up to speed as quickly and efficiently as is possible.
